JAVA DEVELOPER

Seeking an entry-level position to further develop and expand upon the technical expertise acquired over the past 3 years. Proficient in programming language like Java, possessing a profound comprehension of database systems. Experienced in creating Restful APIs, enhancing database query efficiency, and establishing high-performance server structures. Dedicated to ongoing learning and keeping abreast of current industry advancements.

KEY COMPETENCIES

- Programming Language: Java,SQL
- Coding
- Java Fundamentals
- Programming
- Java Generics
- JDBC Connectivity
- Object-Oriented Programming
- SQL Databases
- SQL and Database Design

PROJECTS

Cricket Fantasy Database Management System

- Languages and tools used are Java, MySQL, Play Framework, Restful API, Postman
- Developed the back-end of an fantasy cricket game platform using Java and MySQL
- Designed and implemented Restful AP I for user authentication
- Developed a database management system using MySQL for a fictional Fantasy cricket game website
- Designed and implemented a normalized database schema to efficiently store and retrieve data

Email Scrapper Chrome Extension

- Developed a Chrome browser extension leveraging JavaScript and Chrome Extension APIs to extract email addresses from web pages.
- Designed a user-friendly interface allowing users to customize scraping parameters and view extracted email addresses.
- Implemented parsing algorithms using regular expressions for accurate email extraction.
- Incorporated error handling mechanisms to ensure robust performance across various web page formats.

EDUCATION

Bachelor of Engineering

SJB Institute of Technology ,Bengaluru,Karnataka

Intermediate

Mahatma Gandhi Inter College, Gorakhpur, U.P

High School

Mahatma Gandhi Inter College, Gorakhpur, U.P

ACHIEVEMENTS

- Achieved a 3-star proficiency badge in problem-solving on HackerRank.
- Achieved a 4-star proficiency badge in Sql on HackerRank.
- Awarded the Player of the Series title in cricket for the school.
